

Recruitment

The trial is now at 27 participants, with April being a great month for recruitment despite the easter break.

Congratulations to:

Phil Riley and the team at Manchester for recruiting their second participant.

Dan Hawley and the team at Sheffield for recruiting their second participant.

Louise Walker and the team at Gloucestershire for recruiting their second participant.

Alex Tabor and the team at UHNM for recruiting their second participant.

Reminders

Screening logs—please ensure that you are completing screening logs for all potential participants—we are using the logs to monitor any barriers to recruitment so it is vitally important that we capture this information. Any participant that you approach will need to be captured on the log.

Data Queries—please ensure that you are logging into REDCap regularly to resolve any queries that are raised there.

Consents—please send all consent forms securely to lctc_consents@liverpool.ac.uk within 7 days following randomisation.

Important Information

Questionnaires — Age related questionnaires must be completed based on the age of the participant at consent. If the participant has a birthday during the trial that takes them into the next age bracket—please continue to use the questionnaire based on their age at consent.

Re-consent — If participants turn 16 years old during their participation in the trial they should be re-consented and this should be recorded on the REDCap database and sent to LCTC using the email address above.
